

AERT

SOPHISTICATED FASHION STYLE

UNEXPECTED AERT

Inspired by nature, Aert brings distinctive and vibrant colours to its outfit in an unexpected way. A sophisticated fusion of colour -- lemon yellows, bougainvillea pinks, frosted lilacs, azure blue, almond green-- is the hallmark of Aert design.

A PIONEERING BRAND

Aert began designing its prints and outfits in 2016 with a passion for quality and an instinct for innovation. Aert designers explore pattern, texture and colors, using only garments and products that are kind to its clients and to the environment.

THE FOUNDER

Since young age Ilhan Dahir began developing her signature prints-- graphic, abstract designs, which swooshed in an explosive mix of colour. Ilhan's work takes inspiration from the world around her - art, design, mother nature, motives, sun and sea weavers, and optical illusions.
